

Kovel Collection introduces new Giant Panda Bear design

Kovel Collection is excited to introduce their new Giant Panda Bear design jewelry, the next of several new silver designs debuting into 2022. This Giant Panda Bear design is the latest addition to the Kovel family brand of eco and nautical jewelry.

"This endangered species design was inspired both by its cuddly coloration and also its demeanor as a gentle lovable animal," says eco design artist and sculptor Dr. William Kovel.

All Kovel Collection designs are rhodium plated sterling silver with 18k gold plated accents and are available in either hand cut colorful opals or Tahitian mother of pearl.

Kovel Collection combines only the finest materials with superior old world artisan craft and only genuine colorful precious and semi-precious gemstones.

For more information call Marie at 305-297-2260, email kovelcollection@gmail.com or visit kovelcollection.com.

Gemlogis USA introduces BELIZE diamond verifier

Gemlogis USA, a leading manufacturer of gemological instruments, is excited to announce the introduction of a new all-in-one portable diamond tester/verifier. The Gemlogis BELIZE can differentiate between earth mined and Type IIa/CVD/HPHT lab grown diamonds, simulants and moissanite at an affordable price.

"The BELIZE uses advanced technology to ensure testing accuracy and reliability of stones as small as .02 cts, loose or mounted stones," says Keith Sessler, President of Gemlogis USA. The BELIZE has received high ratings from ASSURE (UL labs), which

evaluates testers from all manufacturers.

Additionally, when paired with the Gemlogis BLEU, the BELIZE can also be used to test colored stones.

"During the past 35 years of selling diamond testers we have finally introduced a highly accurate, handheld, all-in-one tester that the industry has been wait-

ing for," added Sessler. "Every jeweler, pawn broker or anyone involved in the jewelry business, can't be in business without one."

Stone Testing Capability

- Weight - 0.02 ct +
- Size - 1.50mm +
- Color - D-J
- Shape - All
- Diamond Simulants - Yes
- Mounted Stone - Yes (not yet ASSURE tested)
